WORLD

Professional Manufacturer for Beverage Packaging Machinery

It is developed by advanced bottle blowing technology and has the advantage of high-level fulling automatic, stable working performance, simple structure but high working efficiency.

Bottle blowing machine

PE film shrink packing machine can apply to the full automatic packaging production line of bottle beer, beverage, pure water, fruit juice, dairy products, etc.

PE film shrink packing machine

Water treatment machine is mainly used in Medicine, Chemical industry, Electro-plating, Domestic water, Food and beverage, Cosmetics, Bitter, Sea water desalination, Bioengineering, Experimental water and Micro-electronics.

Water treatment system

The machine is mainly applied to fill non-gas beverage which integrating with washing, filling and capping. It is suitable for polyester bottle and plastic bottle with all volumes and shapes. It is designed more compact and stable of controlling system, easy to operate and high automatically.

Bottle Washing/Filling/capping 3in1 machine

It is using the high-speed equipment equivalent PLC, positioning module, servo motor and inverter, touch screen user-friendly operation.
