Zhangjiagang AiBiM Machinery Co.,Ltd located in the golden mile of Yangtze River delta,only 100km to Shanghai.With more than twenty years experience in manufacturing plastic machines.we are professional in making injection blow molding machine & blow molding machine&mould.

Our machine is suitable for general material PE PP PVC PETG PS EVA EVOH ABS TPV etc.with volume 5ml-3000L,Such as bottles,pot,toolkit package,automobile special-shaped hollow parts,medical apparatus and instruments,traffic facilities,large desktop edition,large pallet etc.Our machine received high prize by customer. All through these years,we have already exported many machines all over the world.If you can send the sample or drawing(including the output you required),we will choose the suitable machine for you.

About us

NINGBO BEILUN FULLY MACHINERY CO., LTD. is located in NingBo BeiLun district, ZheJiang province, near to NingBo port. The company is specialized in developing, producing and merchandising plastic injection molding machines.

Currently there are four series of injection molding machines -- solar, luner, lightning, and aurora. Fully machinery is featured by reliability, efficiency, precision, and energy saving, by applying industry advanced design, components, and control system.

Fully machinery is well known in domestic market, and export across countries in south america, south asia, south east asia, middle east asia, east europe, and africa. It is now recognized by our customers as a professional manufacturer with excellent quality, competitive price, and reliable services.

Striving for excellence and offering customized injection molding solution is our company vision. we welcome your valuable inputs for our sustainable growth.

GH Lightning series high speed injection molding machine is specially designed for thin-will and IML projects with high injection speed, short cycle-time, energy-saving, stable and perfect molding.

光华(GH)系列是针对目前市场上需求广泛的超薄食品容器和餐具、医疗产品、导光板、记忆卡、深腔成型、模内贴标IML等制品，所研发的具有注射速度快、成型周期短、耗电量少、稳定性高等特点的薄壁高速专用注塑机。

■ About us:

Nanjing Zhuo-Yue Extruders Co.Ltd established in 2011. Our company is a professional manufacturer and exporter of Twin Screw Compounding Extruder. We specialized in the processing and marketing of mechanical equipment and parts, meanwhile, we also self-employed and agents of all types of goods and technology import and export business. We have over 50 employees, an annual sales figure that exceeds USD 1.5 million and are currently exporting 80 percent of our production worldwide. In virtue of our high quality products and outstanding customer service, we have gained a global sales network reaching Southeast Asian countries. Cooperated to achieve excellence.

Our company (Qingdao tongsan plastic machinery Co.,Ltd. and Qingdao hegu wood-plastic machinery Co.,Ltd.) situated on the prosperous Jiaozhou bay, is exclusively specializing in designing and manufacturing a great variety of plastic machinery.

Main product : Single/Double wall corrugated pipe machinery , WPC machinery (the turn-key project contains , wood milling machinery , mixer , WPC pelletizing machine, WPC profile machine , WPC board machine, Final product surface treatment machine)

All the staff of our company adhere to the principle of "trust is root, client is god, high quality is first , service is best" that we want to do business with the people all over the world on mutual benefit.

■ 工业冷水机（风冷式）
Industry Air-cooled chiller

Widely used in injection molding, pressure casting, roll wheel, rubber, welding and other fields.

■ 模具温度控制机（油/水式）
Mold temperature controller (oil/water type)

PID high precision temperature control, energy-saving insulation design

■ 螺杆式冷水机
Screw type chiller

This series of machine can be used in injection molding, rubber and plastic, extrusion, plating, molding, leather, laser, printing, liquid pressure, chemical, machine main roller and other supporting equipment cooling. Main parts are visible on the outside, easy to repair, maintenance, etc.

■ 冷热一体机
Hot and cold machine

5°C to 98°C temperature range, Multipath temperature control can be carried out at the same time.

■ 螺杆风冷式冷水机
Screw air-cooled chiller

1. Adopt international famous brand semi-hermetic screw compressor, low noise super cooling
2. Adopt efficient rolling teeth not welded inside screw heat exchange tubes of evaporator, efficient conduction
3. The top row of side suction type finned radiator, low noise fan, strong wind, good heat exchange effect, low noise.

■ 除湿干燥机
Dehumidification dryer

Dehumidifying, drying and conveying (primary and secondary) three functions are combined into One. low dew point(-40°C) especially suitable for precision molding production.

■ 冷风机
Air cooler

Applications include: workpiece cooling, cooling - tunnel, laser, chemical, electroplating, oxidation, precision instrument, printing ink, printing, paper, metal, casting, injection molding, blister cooling, medicine industry, food industry, electricity circuit board, wave soldering, reflow soldering, spatial processing, welding cutting, surface treatment, glass crafts, jewelry processing, leather, farming

■ 粉碎机
Crusher

Large capacity, Application widely, strong crushing all kinds of bad products and the gate of material.

Shanghai Minghui Precision Mould Co.,Ltd.
Kunshan Xinmingkai Precision Mould Co.,Ltd.

Kunshan Xinmingkai Precision Mould Co., Ltd. (formerly Shanghai Minghui Precision Mould Co., Ltd.) is one of professional pneumatic hole punch manufacturer. Which Located in Kunshan City, Jiangsu Province, China and bordered with Shanghai-The China's largest metropolis.

Main products are diameter 1-80MM Round hole, Euro hole, butterfly hole, triangle hole etc. pneumatic hole punch machine, also can manufacture special-shaped and multi-hole puncher according to customer's sample or drawing. Our Products are mainly used in various plastic bags, nonwoven, blister boxes etc. flexible materials automatic pneumatic drilling.

昆山震塑机械设备有限公司

KUNSHAN ZHENSU MACHINERY EQUIPMENT CO.,LTD.

模具水路清洗机:

清洗原理概述:

震塑模具水路清洗机应用水气混合分子剥离专利技术(专利号: 201520593673.2), 在高速水流中混入压缩空气, 并根据实际工况自动控制不同频率的物理气压脉冲, 从而对模具水路内壁产生冲击爆破作用, 形成空爆。机器全自动运转时, 通过对管路内壁进行正反双向的反复冲刷和爆破, 使水路管壁的水垢及铁锈剥离, 同时去除模具水路中的附着物和其他杂质, 经过过滤和沉淀, 污垢通过排污口排出, 完成对模具水路的清洗。

Mold water route cleaning machine:

Cleaning Principle Summary

ZHENSU mold water route cleaning machine adopted water-gas mixture molecular stripping technology(patent number: 201520593673.2), mix compressed air in high - speed stream, according to the actual working condition, the physical pressure pulse of different frequency is automatically controlled, Therefore, the inner wall of the mould water route is impacted and exploded, forming an air explosion. During the full automatic operation of the machine, the water scale and rust of the water route are stripped by repeatedly washing and blasting the inner wall of the pipe in both positive and negative directions. Meanwhile, other impurities in the mold water route are removed. After filtering and precipitation, the dirt is discharged through the sewage outlet, and the mold water route is cleaned.

Before

After

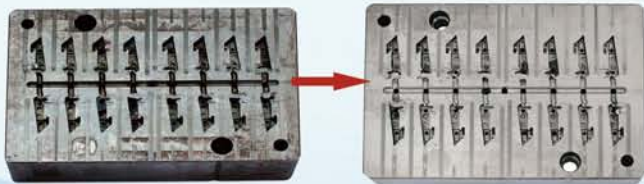

Patent certificate

电解模具清洗机清洗工艺:

1. 电解清洗: 电解清洗清除模具表面油、锈、硫化物、树脂碎末及瓦斯气等污垢。(时间一般设定30分钟)
2. 流水清洗: 自来水流水冲洗, 冲洗掉模具表面残留的清洗液及未脱落的污垢。
3. 防锈作业: 将冲洗好的模具用风枪吹干, 放入塑料器皿中, 倒入防锈液, 浸泡防锈液2分钟, 拿出工件风干。

Mold Electrolytic Cleaning Machine Cleaning Process:

- 1.Electrolytic cleaning: electrolytic cleaning removes dirt, rust, sulfide, resin debris and gas on the surface of the mold.(generally set for 30 minutes)
- 2.Water cleaning: tap water flushing, flushing off the mold surface remains of the cleaning fluid and unshed dirt.
- 3.Anti-rust operation: dry the rinsed mold with air gun, put it into plastic containers, pour the anti-rust liquid, soak the anti-rust liquid for 2 minutes, and then take out the workpiece and air dry.

上海百艳实业有限公司
Shanghai Baiyan Industrial Co., Ltd

Wenzhou Jinbaicai Pigment Technology Co., Ltd. is a production, research and development as one of the high-end fine pigment-based joint-stock enterprises. The company insists the pigment-based industry, and its chemical advantages and higher institutes, and gradually get involved in the chemical additives and other related fields. Relying on regional resources, holding shares, the investment cooperation, the domestic marketing company set up production bases and coastal mega-cities, the formation of more than 2000 tons. An annual output of gold one hundred color brand organic pigments, inorganic pigments nearly ten thousand tons. The company has independent import and export right, and passed the ISO quality management system certification.
